UNIGLOVES® NITREX

Features

- Designed to help sustain our planet
- Committed to achieving Net Zero
- Extensive back of hand TPE protection
- Featuring Unigloves NitreGuard Technology
- Featuring Unigloves NitreGrip Technology
- Certified to OEKO-TEX® STANDARD 100
- 13 gauge sustainable seamless cut level F liner
- RCS (Recycled Claim Standard) Accredited
- Sandy nitrile palm coating
- Reinforced thumb crotch
- Touch screen compatible
- Contact heat resistant

Benefits

- Nitrex 295RP sustainable seamless liners are designed with 14% recycled polyester yarn* reducing our carbon footprint by 12.5g CO_2 equivalent / pair** The finished good uses plastic-free inner packaging
- Through Ecologi, we neutralise any emissions we cannot avoid related to this product, by funding projects that remove carbon directly from the atmosphere
- TPE acts like a barrier, providing impact protection and passes the EN388 impact test
- Unigloves NitreGuard Technology is awarded to gloves achieving a high-performance in the straight blade cut test
- Unigloves NitreGrip Technology is a new, advanced surface treatment that provides an assured grip when working in dry, wet or oily conditions. The technology reduces the force needed to grip, reducing hand fatigue
- Independently certified by OEKO-TEX®, tested for harmful substances
- Medium-weight liner delivers maximum cut protection. At the same time providing good dexterity and flex to reduce hand fatigue
- The RCS is associated with products containing recycled materials
- The sandy nitrile coating is resistant to oils and grease acting as a physical barrier. In addition, the sandy nitrile gives exceptional grip in dry, wet and oily environments
- The reinforced thumb crotch offers increased protection when handling ropes and abrasive material and increases the life of the glove
- The product allows use of touch screens without having to remove the gloves and put hands at risk of injury
- Contact heat resistant to temperatures up to 100°C
